
Appendix C: National Family Caregiver Support Program

The Older Americans Act, as amended in 2000, enabled AAA to provide multifaceted systems of support services for family caregivers and for grandparents or older individuals who are relative caregivers. The following is a review of how the NFCSP will be implemented in the State, by planning service areas. The review includes: the categories of services that will be provided/expanded; funding allocated to the service categories; and the projected number of caregivers who will benefit from the services during the plan period.
